My Custom Computer

4) My Custom Computer My Custom Computer is a lightweight and portable application that gives you the possibility to hide any built-in Windows features from My Computer, such as Administrative Tools, Scheduled Tasks, Network Connections, Recycle Bin, and Internet Explorer. Old, yet functional tool It doesn't contain complicated options or customization properties, so it can be handled with ease even by those inexperienced with OS tweaking utilities. Before proceeding any further, you should know that My Custom Computer hasn't received updates for a long time and we've experienced compatibility issues with later Windows models. It was originally designed for Windows XP. Disable and enable Windows features When it comes to the interface, the program opts for a standard window with a neatly structured layout, giving you an overview of all options available. The frame stays on top of other windows. It's only a matter of clicking the button next to each Windows feature you want to disable (can be later re-enabled). Apart from the previously mentioned tools, you can control Search, Help and Support, Scanners and Cameras, Taskbar and Start Menu, Network Wizard, Folder Options, Printers and Faxes, Add Network Place, Shared Folders, Microsoft Outlook, Run dialog box, Fonts folder, Start Menu folder, Programs folders, Set Program Access, Wireless Wizard, User Accounts, and Shared Documents. The modifications are quickly applies to the computer, so there's no need to reboot it. Portability advantages The entire program's packed in a single.exe file that can be saved anywhere on the disk or copied to a removable storage unit, in order to seamlessly launch it on any PC with minimum effort and no previous setup. It doesn't need DLLs or other components to work properly, or create files on the disk without your permission. Evaluation and conclusion It worked smoothly in our tests, without hanging, crashing or prompting errors. CPU and RAM usage was minimal, so it didn't affect the machine's performance. Thanks to its straightforward interface and options, My Custom Computer can be easily handled for deactivating unused Windows features. Too bad that it hasn't been updated for a long time. About the software SKYNET.VIRTUAL.RS 3.9 Rating: Visit Author's Website Security code is 12900264 Offline This product was released on 02.05.2017 It offers you the possibility to b7e8fdf5c8

My Custom Computer Crack+ With Serial Key Free

➤ My Custom Computer is a lightweight and portable application that gives you the possibility to hide any built-in Windows features from My Computer, such as Administrative Tools, Scheduled Tasks, Network Connections, Recycle Bin, and Internet Explorer. ➤ My Custom Computer has not been updated in a long time, but it's still a very simple application for disabling Windows features ➤ My Custom Computer is easy to use and understand for users ➤ My Custom Computer has minimal CPU and RAM usage and doesn't affect the system performance ➤ My Custom Computer is portable and can be easily moved to another machine ➤ My Custom Computer doesn't need a custom DLL file ➤ My Custom Computer doesn't prompt any user actions after the modifications are successfully applied, meaning that ➤ My Custom Computer doesn't prompt the user to reboot the system to complete the modifications ➤ My Custom Computer is simple in design, but capable of hiding any built-in Windows features from My Computer ➤ My Custom Computer requires no reboot before using the modified features ➤ My Custom Computer can be easily accessed from every Windows menu by clicking the button next to each feature ➤ My Custom Computer is not limited in its functionality and modifications can be performed any time ➤ My Custom Computer does not change the system appearance and layout ➤ My Custom Computer is fully portable and can be easily moved anywhere on the disk ➤ My Custom Computer does not require any other software installation ➤ My Custom Computer is compatible with all Windows versions from XP to 10 My Custom Computer Description: ➤ My Custom Computer is a lightweight and portable application that gives you the possibility to hide any built-in Windows features from My Computer, such as Administrative Tools, Scheduled Tasks, Network Connections, Recycle Bin, and Internet Explorer. ➤ My Custom Computer has not been updated in a long time, but it's still a very simple application for disabling Windows features ➤ My Custom Computer is easy to use and understand for users ➤ My Custom Computer has minimal CPU and RAM usage and doesn't affect the system performance ➤ My Custom Computer is portable and can be easily moved to another machine ➤ My Custom Computer does not need a custom DLL file ➤ My Custom Computer doesn't prompt any user actions after the modifications are successfully applied, meaning that

What's New In?

Our Custom Computer is a lightweight and portable application that gives you the possibility to hide any built-in Windows features from My Computer, such as Administrative Tools, Scheduled Tasks, Network Connections, Recycle Bin, and Internet Explorer. Old, yet functional tool It doesn't contain complicated options or customization properties, so it can be handled with ease even by those inexperienced with OS tweaking utilities. - Disables and enables selected features on Windows XP, Vista and Windows 7 computers. - All features are re-enabled in the same form. - There are several permissions in the application's registry.
